Dear Mr. Blume:

Just a note to extend our thanks for the excellent work you recently did at our company, A.G. Miller Co. Inc.

Your company has a very high quality of professionalism. The people who worked on the lighting were very cordial, always on time, and very informative regarding the lighting and installation they were going to use. The new lighting has exceeded our expectations, and has made a world of difference out in the plant. It's like night and day.

Thanks for lighting our world for less!!!

Regards,

Steve Runnals
Plant Manager
