Andrew Bloom
ESCO Energy Services Company
309 Pittsfield Road
Lenox, MA 01240

Dear Andrew:

I am please to be writing this letter of recommendation for the services you and your company provided to us during the recent lighting upgrade of our warehouse and shop areas. Thank you and your team for a job well done! The process was excellently executed. Site evaluations, light readings, ceiling heights, and work areas were all taken into consideration in your very detailed summary of recommendations. Nothing was over looked.

I was particularly impressed with the steps taken by the Project Manager who met with us prior to the implementation process to review all site requirements including critical areas and plant safety requirements. He kept in daily contact with the Plant Superintendent to review what was accomplished and to map out a progressive course from beginning of the project to end. His team performed exceptionally well always mindful of our work requirements, product flow, and peek production times. They were always very professional and flexible.

Our shop and warehouse associates are very pleased with the results of the project. The upgraded lighting has significantly improved their working environment. In addition, as Plant Manager I am most impressed with the reduction in electrical usage and resulting savings. If I can be of any assistance to you or your firm or prospective customers, please feel free to contact me.

Sincerely,

Louis Guillette
Plant Manager
