Kevin Clough
ESCO Energy Services Company
280 Sunset Terrace
Orchard Park NY 14127-2537

Dear Kevin,

I am writing to compliment you on the Lighting Retrofit Program that was recently completed at our facility. Curtis Screw is a much brighter place because of it. The energy savings and the rebate from the New York State Energy Research and Development Authority allowed us pursue this project in these difficult economic times. It was amazing how the installers were able to work around the people and equipment at our facility, causing little disruption of our activities.

Sincerely,

Marty Nuara
Plant Manager
Curtis Screw Co.
