Andrew Bloom  
ESCO Energy Services Company, Inc.  
309 Pittsfield Road  
Lenox, MA 01240

Dear Andrew:

Our recently completed lighting project was a great success. You installed over 800 upgrade measures resulting in a 117kW reduction (62% of our previous lighting load) with a great improvement in light quality. Your project manager, Lou Alfano, did an excellent job coordinating the project. There was little or no disruption to our production activities. I also appreciate your helping us secure our rebate incentive through the CL&P RFP program.

We are very pleased with the results of this project and would highly recommend ESCO Energy Services Company to others for lighting upgrade services.

Sincerely,

John Spino  
Vice President, Operations
