Colby,

I just wanted to thank you, and express my complete satisfaction for the truly professional service your company has performed for us. Every phase of the project was well planed and coordinated to minimize any disruptions to our regular business activities. Most importantly, you were able to reduce our electrical consumption while significantly improving our overall lighting conditions.

The communication and workmanship performed by John and his staff was truly outstanding. The job they did over at our storage building has really been appreciated by the people who work there.

I would highly recommend ESCO to anyone who is looking to improve the lighting systems and cost efficiency within their facility.

Thank You,
