Dear Mr. Lewis,

I would like to compliment you and your staff, the work of installing the lighting system in our eight schools was completed on time and without any major problems. John Sellev and Lee Palma provided excellent project management, the efficiency and professional leadership was demonstrated by a well organized installation crews. John and Lee provided me with weekly updates at each job meeting schedules for each school and assured me that all work was done in a clean and orderly fashion.

It is not often that I write letters such as this, but ESCO's performance warrants this action. Please feel free to use my name for future reference at any time.

Respectfully,

Alfred F. Soetebeer, Sr.
